* やきものため、焼成による若干の寸法差が生じますのでご了承ください。
また、突き付けでの施工はしないで下さい。寸法差が大きくなり、躯体の動きに追従できないために剥離の原因となることがあります。

* As per ceramic products characteristics, there are individual size, shape, and color differences.
Please set an appropriate joint enough to absorb size differences of tiles. If you installed without joints, the size difference will be a result of unstraight joints. Also, it may be a reason of tile separation from wall because tiles can not follow a movement of substrates.
